## Project description

The project is aimed at fostering **intercultural dialogue and mutual understanding** through the **participation of European citizens together with Third Countries citizens who legally stay in the EU.**

The project aims to draw a counter-narrative of supportive immigrants who accept the challenge of a concrete demonstration of belonging to the community that welcomed them, with the adoption of a selfless behaviour, of civic responsibility, as the practice of free, voluntary and periodic donation of blood and, occasionally, of cells and organs.
